TO: Twilight Committee

FROM: John Spencer

SUBJECT: Meeting 29 April 1982

ASSIGNMENTS

LN will write and distribute a history of the BSU and its predecessors discussing the various directions that it has taken under its varying leadership.

LN will also write a history of the BSU Library.

INFORMATION

The Committee reviewed LN's revised BSU and Library reports which were distributed today. It was agreed to add a seventh item to the BSU report, namely that the BSU should have ongoing conversations with the Dean of the College and the Deans of Students. Concerning the Minority Alumni Report, AA noted that the Association changed its name from the Black Alumni Association to the Minority Alumni Association.

The Committee then discussed the Starr Library holdings of minority materials. It was agreed that the departments whose curricula contained minority materials should try to get "basic bibliographies" for their respective disciplines which would then be sent to the Acquisitions Librarian. It would be the responsibility of one faculty member in each department to keep this list current. Some other faculty member or member of the Library staff would have the responsibility of seeing that this was done annually.

Finally, the Committee reviewed LN's revised Curriculum Report. Except for the addition of "minority concentration" that we discussed at the last meeting, no additions or corrections were made.
